

BACHELOR OF APPLIED SCIENCE IN HEALTH STUDIES

Web Site: <https://twu.edu/health-studies/undergraduate-programs/bas-in-health-studies/>

The Bachelor of Applied Science (B.A.S.) degree expands the skills and knowledge base of students who have completed an Associate of Applied Science degree in various health and medical fields, such as respiratory therapy, medical laboratory technology, radiology, occupational therapist, and physical therapy assistant. The B.A.S. degree with a major in Health Studies includes a curriculum of 36 semester credit hours (SCH) from the Associate of Applied Science degree, 21 SCH in Health Studies, and 15 SCH in Business. The program provides students the knowledge and skills to apply concepts and principles of management and organization, including the functions of planning, organizing, directing, and evaluating; effectively engaging in human relations, communications, and leadership; and applying basic principles of business organizations and operations.
