## Marketable Skills

Defined by the Texas Higher Education Coordinating Board's 60x30 Strategic Plan (<https://reportcenter.highered.texas.gov/agency-publication/miscellaneous/thecb-60x30-strategic-plan/>) as, "Those skills valued by employers that can be applied in a variety of work settings, including interpersonal, cognitive, and applied skills areas. These skills can be either primary or complementary to a major and are acquired by students through education, including curricular, co-curricular, and extracurricular activities."

- a. Effectively use evidence-based analysis to develop individual medical nutrition therapy plans for clients using the nutrition care process by making decisions, identifying nutrition-related problems, and determining and evaluating nutrition interventions.
- b. Successfully apply management theories and business principles to deliver programs and services.
- c. Effectively apply quality management of food and nutrition services.
- d. Consistently apply fundamentals of public policy, including the legislative and regulatory basis of nutrition and dietetics practice.
- e. Effectively demonstrate cultural competence when interacting with clients, colleagues, and staff.
- f. Properly facilitate behavior change and enhance wellness for diverse individuals and groups using counseling and education methods.
