

CHILD CARE

The CARE (Campus Alliance for Resource Education) office provides educational and financial resources for students seeking child care. Funded by the US Department of Education grant (CCAMPIS), eligible students may receive financial assistance to help cover the cost of child care at pre-approved centers through SUCCESS (Succeed Using Child Care and Educational Student Services). Details and the SUCCESS application are on the CARE website. Some additional resources include the Texas Child Care Services (CCS) Assistance Program, the Texas licensing database, and tips for evaluating quality care and a list of child care centers (including TWU Club House). For additional resources and information please visit CARE-Child Care (<https://twu.edu/care/family/child-care/>).
