## Marketable Skills

Defined by the Texas Higher Education Coordinating Board's 60x30 Strategic Plan (<http://www.60x30tx.com/>) as, "Those skills valued by employers that can be applied in a variety of work settings, including interpersonal, cognitive, and applied skills areas. These skills can be either primary or complementary to a major and are acquired by students through education, including curricular, co-curricular, and extracurricular activities."

1. Effectively use evidence-based analysis to develop individual medical nutrition therapy plans for clients using the nutrition care process by making decisions, identifying nutrition-related problems, and determining and evaluating nutrition interventions.
2. Successfully apply management theories and business principles to deliver programs and services.
3. Effectively apply quality management of food and nutrition services.
4. Consistently apply fundamentals of public policy, including the legislative and regulatory basis of nutrition and dietetics practice.
5. Effectively demonstrate cultural competence when interacting with clients, colleagues, and staff.
6. Properly facilitate behavior change and enhance wellness for diverse individuals and groups using counseling and education methods.
