

DIVISION OF BIOLOGY

Web Site: <http://www.twu.edu/biology/>

Director, School of the Sciences: *Juliet Spencer, Ph.D.*

Phone: 940-898-2351

E-mail: biology@twu.edu

Division Lead, Graduate Studies: *Dayna Averitt, Ph.D.*

Phone: 940-898-2351

E-mail: biology@twu.edu

P.S.M. in Biotechnology Program Director: *Stephanie Pierce, Ph.D.*

Phone: 940-898-2797

E-mail: spierce9@twu.edu

The Division of Biology offers undergraduate programs in Biology and Medical Laboratory Sciences and graduate programs in Biology, Biotechnology, and Molecular Biology.

Graduate Degrees Offered

- M.S. in Biology (<http://catalog.twu.edu/graduate/arts-sciences/biology/biology-ms/>)
- M.A.T. (Interdisciplinary) (<http://catalog.twu.edu/graduate/professional-education/mat-graduate-interdisciplinary-degree/>)
- P.S.M. in Biotechnology (<http://catalog.twu.edu/graduate/arts-sciences/biology/professional-science-master-biotechnology/>)
- Ph.D. in Molecular Biology (<http://catalog.twu.edu/graduate/arts-sciences/biology/molecular-biology-phd/>)

Students in the Division of Biology can obtain a graduate degree with an emphasis in molecular biology, microbiology, virology, neurobiology, genetics, botany, or science education. The primary objectives of the division are to provide education and training to prepare students to enter a career in research, industry, or teaching. Within the division, there are opportunities for both teaching and research assistantships.

The doctoral degree is offered through the Federation of North Texas Area Universities.
