

MASTER OF SCIENCE IN MATHEMATICS (STATISTICAL)

Web Site: <https://twu.edu/mathematics/graduate-programs/>

The Master of Science in Mathematics prepares the student to enter the workforce to teach at the community college level or to pursue doctoral degree programs in mathematics, statistics, applied mathematics, or related fields. The program of study also provides the student with an opportunity to include computer science and statistics in the degree plan.

An emphasis in applied mathematics is available for those desiring to pursue a career in a mathematics-related area in industry or government.

An emphasis in statistics is available for those interested in careers as applied statisticians or statistical programmers. Students can complete the program by taking evening or online courses in fall and spring.

Variable-length courses are available in face-to-face or online format each summer.
