The Division of Social Work is a place where academic excellence, ethics, diversity, and the pursuit of social justice are embraced by faculty and students to enhance the lives of vulnerable and oppressed populations. The department is a reflection of social work's historic commitment to human rights, cultural complexity, and social, economic, and environmental justice. Our overarching goal is to educate and graduate diverse, ethical, competent social work students who are able to think critically and use evidence-based practice approaches to effectively serve culturally diverse, vulnerable individuals, families, and communities in a wide variety of practice areas as practitioners, leaders, and social justice advocates.

The division offers a Bachelor of Social Work (BSW) degree and a Master of Social Work (MSW) degree. The BSW program is accredited by the Council on Social Work Education (<http://www.cswe.org/>) and prepares students for generalist social work practice. Based on the generalist model, the program includes theoretical concepts, values, and skills taught through participation in the classroom, laboratory, and field settings.

The M.S.W. is considered to be one of the most recognized and marketable social services degrees. The M.S.W. program prepares students for advanced generalist professional practice in a variety of practice settings. Graduates are eligible to sit for licensure as a Licensed Master Social Worker (LMSW) and, with two years of supervision, become a Licensed Clinical Social Worker (LCSW).
