

MASTER OF HEALTHCARE ADMINISTRATION (GLOBAL HEALTH)

Web Site: <https://twu.edu/business/mha/mha-global-health/>

Degree Requirements

Total Semester Credit Hours Required

48-57 semester credit hours (SCH).

Code	Title	SCHs
Leveling/Foundation Courses (may be waived with advisor approval)		
HCA 5103	Foundations of Health Services	
HCA 5463	Research Methods for Managerial Decision Making	
HCA 5513	Financial Accounting in Health Care Administration	
Health Systems Organization Sequence		
HCA 5393	Health Law and Ethics	3
HCA 5633	Health Policy Analysis	3
Management and Leadership Sequence		
HCA 5223	Strategic Planning in Healthcare	3
HCA 5343	Human Resources Management in Health Care Administration	3
HCA 5883	Professional Portfolio and Healthcare Career Competencies	3
HCA 5933	Capstone in Health Care Administration	3
Quantitative Methods Sequence		
HCA 5443	Operations Analysis in Healthcare Administration	3
HCA 5473	Health Information Management	3
HCA 5483	Population Health Management	3
HCA 5493	Performance Measurement and Quality in Health Care Administration	3
Finance, Accounting and Economics Sequence		
HCA 5533	Management Accounting for Health Care Organizations	3
HCA 5543	Health Care Finance	3
HCA 5623	Economics of Health Care	3
Required courses for emphasis in Global Health		
HCA 5743	Alternative Systems of Healthcare Delivery	3
HCA 5903	Special Topics (HCA Study Abroad)	3
HCA 5903	Special Topics (HCA Study Abroad)	3
Total SCHs		48-57

Additional Grading Requirements

In addition to the general University grading requirements, the HCA Program limits the number of courses in which a grade of C is made, in HCA program-specific courses, to two. If a grade of C is made in a third HCA program-specific course, then regardless of the cumulative grade point average, the student will be dropped from the HCA Program. Since

this is an HCA grading requirement and not a University requirement, the student may choose to apply to another TWU program.

The two C Rule applies even if the student retakes a course in which the initial grade was a C.

Foundation courses

Foundation courses are the first level of preparation for specialized study in Health Administration. Applicants may request a waiver of any foundation course by presenting evidence of having completed at least two undergraduate or one graduate course in the content area with a grade of B or higher. These courses must be completed prior to enrolling in required courses.

Internship/Fieldwork Opportunities

Internships and field experiences are available with health care organizations. They are designed to provide students with the opportunity to integrate and apply knowledge and skills from their course experiences. While an internship or fieldwork is not required, it is strongly recommended for all individuals who lack health care experience or whose experience is primarily technical or clinical. The decision regarding whether the internship or fieldwork should be included as one of the elective courses is made jointly by the faculty advisor and student at the completion of 12 semester credit hours of study. In addition, many courses include fieldwork projects, tours, and assessments of local health care organizations. A maximum of three semester credit hours may be earned in internship or fieldwork and applied toward the degree. In order to receive academic credit for an internship or fieldwork, the student must contact his/her faculty advisor and complete the necessary documentation with the HCA internship/fieldwork coordinator prior to applying or accepting an internship or fieldwork assignment.

Portfolio

Each student is required to develop and maintain a professional portfolio documenting the attainment of goals and skills acquired in the course of their graduate study. This portfolio and student goals are developed jointly by the student and faculty advisor. The portfolio is to be reviewed periodically with the faculty advisor. Students must enroll in HCA 5883 during their final semester to complete their portfolios.

Some courses in the program may be delivered in a non-traditional distance learning format. As a result, student involvement on campus will vary depending on the method of delivery.
