SCHOOL OF HEALTH PROMOTION AND KINESIOLOGY

Web Site: http://www.twu.edu/health-studies/

Chair: Dr. George King, Professor
Location: CFO 1006
Phone: 940-898-2860
Fax: 940-898-2859
E-mail: HealthStudiesInfo@twu.edu

Graduate Degrees Offered

• M.S. in Health Studies (http://catalog.twu.edu/graduate/health-sciences/health-promotion-kinesiology/health-studies-ms)
• Dual Degree: M.S. in Health Studies / Master of Library Science (http://catalog.twu.edu/graduate/health-sciences/health-promotion-kinesiology/dual-degree-health-studies-ms-mls)
• Ph.D. in Health Studies (http://catalog.twu.edu/graduate/health-sciences/health-promotion-kinesiology/health-studies-phd)
• M.S. in Exercise and Sports Nutrition (http://catalog.twu.edu/graduate/health-sciences/health-promotion-kinesiology/exercise-sports-nutrition-ms)
• M.S. in Kinesiology (Emphasis in Adapted Physical Activity) (http://catalog.twu.edu/graduate/health-sciences/health-promotion-kinesiology/kinesiology-ms-adapted-physical-activity)
• M.S. in Kinesiology (Emphasis in Biomechanics and Motor Behavior) (http://catalog.twu.edu/graduate/health-sciences/health-promotion-kinesiology/kinesiology-ms-biomechanics)
• M.S. in Kinesiology (Emphasis in Coaching) (http://catalog.twu.edu/graduate/health-sciences/health-promotion-kinesiology/kinesiology-ms-coaching-general)
• M.S. in Kinesiology (Emphasis in Exercise Physiology) (http://catalog.twu.edu/graduate/health-sciences/health-promotion-kinesiology/kinesiology-ms-exercise-physiology)
• M.S. in Kinesiology (Emphasis in Sports Management) (http://catalog.twu.edu/graduate/health-sciences/health-promotion-kinesiology/kinesiology-ms-sports-management)
• M.A.T. (Interdisciplinary) (http://catalog.twu.edu/graduate/professional-education/mat-graduate-interdisciplinary-degree)
• Ph.D. in Kinesiology (http://catalog.twu.edu/graduate/health-sciences/health-promotion-kinesiology/kinesiology-phd) (with instruction available in the support areas of Adapted Physical Activity, Sport Management, Biomechanics and Motor Behavior, and Exercise Physiology)

M.S. in Informatics

Informatics is the study and application of information science, computer science, cognitive science, and organizational science to the arts, sciences, and professions. The Master of Science program in Informatics (http://catalog.twu.edu/graduate/arts-sciences/mathematics-computer-science/informatics-ms) at TWU provides students with a flexible, adaptable, interprofessional, and interdisciplinary approach to the study of Informatics in a hybrid learning environment. The program will provide students with the skills needed for success in high-demand professions and careers in the areas of Clinical Informatics, Data Science/Data Analytics, Health Studies, Sports Informatics, and Community Informatics. The program is delivered collaboratively by Academic Components including Computer Science, Nursing, Health Studies, Kinesiology, and Library and Information Studies.

Facilities for Graduate Instruction and Research

The Pioneer Hall was completed in the Spring of 1998. This state-of-the-art facility contains accessible classrooms, multimedia centers, dance studios, laboratories, a large gymnasium, an 8-lane natatorium, an indoor track, a weight training room, an athletic training room, racquetball courts, climbing wall, dressing rooms, and administrative and faculty offices.

Biomechanics and motor behavior, exercise physiology, biochemistry, pedagogy laboratories have been dedicated specifically for teaching and research. These well-equipped facilities permit research studies on persons with and without disabilities in the areas of stress testing, body composition assessment, bone density, cardiovascular respiratory analysis, blood biochemistry analysis that includes glucose, lactate, insulin, C-peptide, and a variety of other hormones and metabolites; isokinetic, isometric, and isotonic strength testing; anthropometry; telemetry; and high speed motion analysis, among others. Portable and online computer capabilities facilitate analysis of digital kinetic and kinematic data gathered with a three-dimensional high speed video system, electromyographic equipment, and electronic forceplates. Computerized data collection and analysis systems are available for motor learning studies.

Outdoor facilities include playing fields, tennis courts, softball diamond, a swimming pool, and soccer field.

Computer facilities of the University are extensively utilized by the school programs as are the many other fine features of the campus and Metroplex.

HEALTH SCIENCES

For a minor in Health Studies the hour and course requirements are flexible and are determined by major and minor committee members and the student’s background and interests. Minor: 12-18 hours

KINESIOLOGY

A minor is offered to doctoral students within each of the four specializations in the doctoral program in Kinesiology: Adapted Physical Education, Sport Management, Biomechanics, and Exercise Physiology. Students wishing to pursue a minor in Kinesiology should meet with a faculty member from the chosen area of specialization to determine the appropriate coursework. Undergraduate prerequisites may be necessary depending on the specialization chosen. A minimum of 12 semester credit hours is required for the minor.

• Post-Baccalaureate Certificate in Adapted Physical Education (https://twu.edu/kinesiology/certificates)
• Post-Baccalaureate Certificate in Leadership in Education and Sport (https://twu.edu/kinesiology/certificates)
Courses

Health Studies Courses

HS 5003. Practicum in Health Education. Internship experiences with health-related agencies or in the development of an original contribution to teaching and learning materials. Six practicum hours a week. Credit: Three hours.

HS 5006. Practicum in Health Education. Internship experiences with health-related agencies or in the development of an original contribution to teaching and learning materials. Twelve practicum hours a week. Credit: Six hours.

HS 5013. Data Collection and Analysis. Overview of data collection and analysis. Covers health education principles such as age-adjustment, relative risk, vital statistics, life tables, and health surveys. Analyzing retrospective and prospective studies, specifically in health education. Three lecture hours a week. Credit: Three hours.

HS 5023. Methods in Health Education Research. Required for Master's Thesis Option only. Focus on basic research skills including library skills, the reading and interpretation of research, writing style, research planning and design, methodologies, and research as they relate to health education. Prerequisite or Co-requisite: One graduate-level statistics course. Three lecture hours a week. Credit: Three hours.

HS 5053. Psychosocial Aspects of Health. Emphasis on theory, research, and application of the interrelationships of the social and psychological aspects of health and wellness, including concepts of stress management and the impact of organizational factors. Three lecture hours a week. Credit: Three hours.

HS 5063. Aging and Health. Aging as part of the life cycle; special health concerns of the elderly; current life extending research and technology for successful aging. Three lecture hours a week. Credit: Three hours.

HS 5103. Principles and Methods of Teaching Health Professionals. Development of classroom and clinical teaching competencies with emphasis on identification of resources, planning and implementation of instructional units, and instructional strategies for health professionals. Three lecture hours a week. Credit: Three hours.

HS 5113. Curriculum Development for Health Professionals. Theoretical concepts of curricular design; identification and implementation of unique factors that determine health curricula. Three lecture hours a week. Credit: Three hours.

HS 5343. Risk Reduction. Identification and analysis of risk-taking behaviors and application of health risk assessment theory, tools, data sources, and methodology. Use of risk assessments, demographic data, and behavior-change theories to determine appropriate health risk reduction and health enhancement strategies for various populations and settings. Three lecture hours a week. Credit: Three hours.

HS 5350. Epidemiology. Study of disease occurrence in human populations and the understanding of the various methods used in the study of disease. Prerequisite: A disease process course. Three lecture hours a week. Credit: Three hours.

HS 5363. Population Health. Dimensions of population health; application of community health concepts through the use of multicultural approaches; effective capacity building in coalitions and other populations. Community health agency organization, role, and structure. Three lecture hours a week. Credit: Three hours.

HS 5383. Program Development and Coordination. Development and evaluation of community and worksite health education programs. Review of approaches to program design, criteria for content selection, writing of programs, and community resources and support. Prerequisite: HS 5423. Three lecture hours a week. Credit: Three hours.

HS 5413. Current Issues in Health Studies. Introduction to the professions of health science and allied health: role, credentialing, ethics, journals, associations and organizations, leaders in the field, and current and future trends in health science. Three lecture hours a week. Credit: Three hours.

HS 5423. Ethnic and Cultural Factors in Health Decisions. Consideration of major chronic, degenerative, and communicable diseases in light of socio-cultural influences; exploration of myths and misconceptions in ethnic groups and the related health implications; alternative strategies for minorities to improve health through education. Three lecture hours a week. Credit: Three hours.

HS 5453. Community-Based Health Informatics. Use of informatics to promote community health; basic technological tools needed to develop and manage public health data collection systems that meet analytical needs of community-based organizations. Three lecture hours a week. Credit: Three hours.

HS 5563. Consumer Health. Information concerning health care products, services, and consumer protection. Strategies for effective delivery of information to the public concerning consumer health related products and problems. Three lecture hours a week. Credit: Three hours.

HS 5613. Worksite Health Promotion. Design and management of effective worksite health promotion programs; organizational aspects of healthy work environments; critical issues related to health behavior change and intervention programs in the workplace setting. Three lecture hours a week. Credit: Three hours.

HS 5713. Dental Hygiene Leadership and Advocacy. Appraisal of selected theories of leadership and identification of practical methods to inspire excellence in individuals, in community, and in organizations; to create and communicate a shared vision; and to successfully manage change both to attain individual and organizational strategic goals and successful performance. Develop advocacy skills from local, state, and national perspectives to contribute to the advancement of the profession and to the improvement of oral health. Prerequisite: Registered Dental Hygienist. Three lecture hours a week. Credit: Three hours.

HS 5723. Health Care in a Culture of Poverty. Research and development of healthcare or oral healthcare plans for under-served populations throughout the world based on the synthesis of the worldview of stakeholders including political, economic and other relevant factors affecting healthcare and oral healthcare delivery. Three lecture hours a week. Credit: Three hours.

HS 5733. Dental Hygiene Clinical Education. Study of educational methodology as it applies to the clinical education environment or for self-evaluation and improvement of clinical skills in the practice of dental hygiene. Access to a dental hygiene program clinic, clinical facility, or dental office is required; however, no clinical treatment of human subjects will be required. Prerequisite: Registered Dental Hygienist. Two lecture and three laboratory hours a week. Credit: Three hours.
HS 5743. Dental Hygiene Educational Concepts. A focused study of educational concepts, including educational theory and methodology, as related to adult learners with the purpose of application in clinical dental patient education encounters and/or formal education of entry-level dental hygiene students.

HS 5753. Interprofessional Collaboration and Health Promotion. Approaches to health care promotion and effective collaboration among members of the healthcare community with emphasis on the diversity of expertise in interprofessional collaborative teams and basic concepts of effective teamwork. Three lecture hours a week. Credit: Three hours.

HS 5763. Alternative Dental Health Careers. Critical examination of professional roles, responsibilities, and structure of various alternate career paths within the discipline of dental hygiene; legal and functional requirements of alternative career paths; cross-cutting principles of leadership within alternative career paths. Three lecture hours a week. Credit: Three hours.

HS 5783. Research in Dental Hygiene. Process of inquiry and research methodologies applied to dental hygiene. Integrative culminating research experience with a professional presentation of the results. Three lecture hours a week. Credit: Three hours.

HS 5803. Writing for Health Studies. Concepts and techniques for effective writing practices within the field of Health Studies. Analysis of professional writing and strategies to improve written communication in a range of writing genres (basic correspondence, essays, literature reviews, abstracts, research-based writing). Three lecture hours a week. Credit: Three hours.

HS 5901. Special Topics. Concentrated study of a particular topic in health education. May be repeated for credit when topic varies. One lecture hour a week. Credit: One hour.

HS 5903. Special Topics. Concentrated study of a particular topic in health education. May be repeated for credit when topic varies. Three lecture hours a week. Credit: Three hours.

HS 5911. Independent Study. Advanced study in a selected area of health education leading to the solution of a problem of professional interest and significance. May be repeated for additional credit when topic varies. Credit: One hour.

HS 5913. Independent Study. Advanced study in a selected area of health education leading to the solution of a problem of professional interest and significance. May be repeated for additional credit when topic varies. Credit: Three hours.

HS 5923. Capstone in Informatics. Culminating organization and/or community-based interdisciplinary/interprofessional project supported through informatics and technology and applied to a specific domain to demonstrate knowledge and skills acquired in the informatics program. Immersive, investigative, and reflective opportunity for deep study on a selected area of practice/application domain. Prerequisite: Completion of 24 semester credit hours. Credit: Three hours.

HS 5983. Thesis. Credit: Three hours.

HS 5993. Thesis. Prerequisite: HS 5983. Credit: Three hours.

HS 6043. Methods in Health Education Research. Review of library skills and writing style, reading and interpreting of research, research planning and design, methodologies, and research reporting as they relate to dissertation prospectus preparation in health education; advanced research skills and health behavior research; appropriate selection of qualitative versus quantitative methodologies; community-based participatory research. Prerequisites: HS 5013, HS 6483, HS 6073, and six hours of statistics. Three lecture hours a week. Credit: Three hours.

HS 6053. Qualitative Research Methods in Health Studies. An overview of epistemological and theoretical perspectives underlying qualitative methods in health science research; techniques for gathering and analyzing qualitative data; and issues relative to publishing qualitative research in health science. Prerequisite: HS 6043. Three lecture hours a week. Credit: Three hours.

HS 6073. Seminar in Health Education. Capstone course that draws from skills learned in other courses throughout the program; synthesis of theory and methods of health education; needs assessment and program planning; implementation; and evaluation into advanced application through grant writing activities; seven areas of responsibility of a graduate level health education specialist. Prerequisites: HS 5423, HS 6453, and HS 5383. Co-requisite: HS 6483. Three seminar hours a week. Credit: Three hours.

HS 6353. Social Epidemiology. Epidemiological methods with focus on social determinants of diseases, including the theoretical foundation and processes involved in conducting social epidemiological research. Prerequisite: HS 5353 or permission of instructor. Three lecture hours a week. Credit: Three hours.

HS 6403. Environmental Health. Basic principles of ecology as they apply to the health of human beings; analysis of modern developments in technology and science and their resultant effects on human beings; development of community efforts in establishing environmental quality. Three lecture hours a week. Credit: Three hours.

HS 6423. Global Health. Health status, health delivery systems, and health policy issues affecting human populations around the world; roles of selected international organizations in advancing the health status of certain populations. Three lecture hours a week. Credit: Three hours.

HS 6433. History of Health and Medicine. Significant historical events with emphasis upon ideas, personalities, institutions, and cultural factors of each era as they affected the origin and development of health education. Three lecture hours a week. Credit: Three hours.

HS 6443. Foundations of Health Science. Introduction of theories and concepts related to health science. Includes rational, psychodynamic, and behavioral theories from education, psychology, and sociology. Applications of theory to health education practice and research. Three lecture hours a week. Credit: Three hours.

HS 6453. Strategies in Health Education Delivery. Identification of the various entities within the health education system which influence decisions about accepting health information and changing unhealthful lifestyles. Development of strategies for effective utilization of health information. Prerequisite: HS 5423. Three lecture hours a week. Credit: Three hours.

HS 6483. Evaluation in Health Education. Evaluative tools for individuals, groups, and programs in health education; methods for selecting instruments and collecting data; advanced interpretation and reporting evaluation results through a formal evaluation plan. Prerequisites: HS 5353, HS 5383, HS 5423, and HS 6443. Co-requisite: HS 6453. Three lecture hours a week. Credit: Three hours.
HS 6563. Health Advocacy and Leadership. Exploration of advocacy, including building coalitions, creating media messages, meeting with decision-makers, and impacting health policy. Three lecture hours a week. Credit: Three hours.

HS 6901. Special Topics. Concentrated study of a particular topic of current interest in health education. May be repeated for credit when topic varies. One lecture hour a week. Credit: One hour.

HS 6903. Special Topics. Concentrated study of a particular topic of current interest in health education. May be repeated for credit when topic varies. Three lecture hours a week. Credit: Three hours.

HS 6911. Independent Study. Individual study in health studies leading to the solution of a problem of professional interest and significance. May be repeated for credit. Credit: One hour.

HS 6913. Independent Study. Individual study in health studies leading to the solution of a problem of professional interest and significance. May be repeated for credit. Credit: Three hours.

HS 6993. Dissertation. Prerequisite: HS 6983. Credit: Three hours.

Kinesiology Courses

KINS 5023. Methods of Research. Types of research; development of research designs; procedures for collection and treatment of data; application of introductory statistics for planning research designs, analyzing data, and interpreting findings; critical analysis of research. Three lecture hours a week. Credit: Three hours.

KINS 5033. Applied Statistical Principles. Statistical principles and their applications to problems in kinesiology and other related areas. Three lecture hours a week. Credit: Three hours.

KINS 5113. Professional Internship in Sport Management. Application of sport management knowledge in varied environments under the supervision of a mentor. Completion of 120 clock hours of experience required. Eight practicum hours a week. Credit: Three hours.

KINS 5123. Professional Affiliation. Practicum experience in educational, clinical, or recreational settings. A minimum of nine hours a week will be spent in the practicum setting. Two semesters are required of students specializing in adapted and developmental physical education. Nine laboratory hours a week. Credit: Three hours.

KINS 5203. Theory of Coaching. Theoretical base with practical application for teaching sport and sport skills; sport coaching responsibilities including developing a coaching philosophy and establishing an effective coaching style; effective communication, management responsibilities, skill development, sport physiology, and productive planning. Designed for coaches at all levels and for all sports. Three lecture hours a week. Credit: Three hours.

KINS 5243. Sport Injury Prevention and First Aid. Recognition and emergency treatment of sports injuries; roles, responsibilities, and limitations of coaches concerning sport injuries; prevention of and response to sports injury; developing a medical emergency plan; includes CPR certification. Three lecture hours a week. Credit: Three hours.

KINS 5253. Organization and Administration for Effective Team Management. Organization and administration of staff, budgeting, personnel, and effective team function. Topics include risk management, recruiting, safety positive learning environment, technology, and legal concerns. Three lecture hours a week. Credit: Three hours.

KINS 5263. Sport Psychology. Sport psychology principles utilized in a coaching environment; enhancing athletic performance through psychological assessment and goal setting; coach-athlete relationships; various psychological problems of athletes. Three lecture hours a week. Credit: Three hours.

KINS 5273. Sport Conditioning and Nutrition. Planning and monitoring strength and conditioning training programs by coaches; development of resistance training programs to improve sport performance; nutritional concepts tailored for athletes in any sport. Three lecture hours a week. Credit: Three hours.

KINS 5293. Technical Skills Analysis. Sport skill analysis; use of biomechanical principles to analytical sport movement; effective communication, feedback, and cues for skill teaching. Three lecture hours a week. Credit: Three hours.

KINS 5303. Coaching Tactical Skills. Competitive tactics and strategies for all sports; analysis of tactical skills and games approach strategies; developing effective practice plans; developing effective decision making for athletes. Three lecture hours a week. Credit: Three hours.

KINS 5403. Leadership Theory and Practice in Sport and the Health Sciences. Leadership theory and models with a focus on personal and organizational effectiveness within the context of sport and the health sciences. Leadership self-assessment; design of a leadership self-development plan; and individual/group problem solving, decision-making, conflict resolution, and performance appraisal. Three lecture hours a week. Credit: Three hours.

KINS 5413. The Sport Industry. Sport-related industries and organizations; examination of dimensions of structure, design processes, theories, and behaviors related to the sport domain. Three lecture hours a week. Credit: Three hours.

KINS 5423. Governance, Policy Development, and Ethics in Sport. Ethical issues, theory, and decision making as applied to the sport industry. Analysis of governance structures and policy development utilized within sport agencies with an emphasis on the organizational structure, strategic management, ethics, politics, policy, and influence of governing bodies. Three lecture hours a week. Credit: Three hours.

KINS 5443. Sport for Development. Social issues, sport for development, and the use of sport as a means of improving individuals and local and global communities. Examination of social development goals and program theory, development, and assessment with emphasis on sport intervention, volunteerism, and evidence-based decision making. Three lecture hours a week. Credit: Three hours.

KINS 5453. Financing the Sport Enterprise. Funding principles and financial practices in the organization and operation of a sport enterprise. Three lecture hours a week. Credit: Three hours.

KINS 5463. Legal Issues in Sport. Application of legal theories to the sport industry with specific focus on tort law, constitutional law, contract law, negligence and risk management, and Title IX. Three lecture hours a week. Credit: Three hours.

KINS 5473. Sport Media and Marketing. Concepts, theories, and trends in sport media, marketing, and sales; current developments in sport communication technologies, models, and modes of delivery for effective delivery of marketing messages to diverse target audiences. Three lecture hours a week. Credit: Three hours.
KINS 5493. Sport Venue and Event Management. Practical knowledge and skill competencies needed for facility and event management within the sport industry. Sport facility and venue trends; planning, designing, budgeting, and management for sport facilities, facility, and event operations; legal issues related to sport facility and event management; and risk evaluation and assessment. Three lecture hours a week. Credit: Three hours.

KINS 5503. Physiological Responses During Alternative Modes of Exercise. Examination of acute physiological responses to alternative modes of exercise and therapies, including hippotherapy, whole-body vibration, dance, functional electrical stimulation, aquatic exercise, and crossfit exercise. Three lecture hours a week. Credit: Three hours.

KINS 5513. Mechanical Analysis of Human Motion. Kinematics and kinetics of human motion with emphasis on the principles describing human motion and the effects of external and internal forces on the human body and motion. Three lecture hours a week. Credit: Three hours.

KINS 5553. Advanced Exercise Physiology. Energy production and control of energy systems; effect of lactate accumulation during exercise; control of the cardiovascular system; adaptations to aerobic and anaerobic exercise training; influence of drugs on exercise performance. Prerequisite: An undergraduate course in exercise physiology. Three lecture hours a week. Credit: Three hours.

KINS 5573. Graded Exercise Testing. Administration and evaluation of graded exercise tests and electrocardiograph results. Two lecture and three laboratory hours a week. Credit: Three hours.

KINS 5593. Environmental Exercise Physiology. Examination of the acute physiological responses to heat, cold, microgravity, altitude, aquatic environments, and air pollution; how to properly adapt to these environments with regard to training; and how the circadian cycle affects exercise performance. Three lecture hours a week. Credit: Three hours.

KINS 5613. Cardiovascular Response to Exercise. General and specific effects of exercise upon the cardiovascular system of the human body, with emphasis upon research techniques relevant to the testing of these systems. Two lecture and three laboratory hours a week. Credit: Three hours.

KINS 5683. Exercise Evaluation and Prescription. Measurement of health-related physical fitness and exercise capacity in healthy individuals and populations requiring special considerations; population-appropriate exercise prescription; underlying physiological mechanisms controlling physical fitness and exercise capacity. Prerequisite: Undergraduate course in exercise physiology. Two lecture and two laboratory hours a week. Credit: Three hours.

KINS 5693. Applied Techniques in Biomechanics and Exercise Physiology. Application of principles of biomechanics and exercise physiology using novel equipment in a field setting. Three lecture hours a week. Credit: Three hours.

KINS 5723. Sport in American Society. Role of sports and games in American culture as expressive of meanings and values; cognizance of the feminine role in sports; contributions of sports and games to human welfare. Three lecture hours a week. Credit: Three hours.

KINS 5793. Pedagogy I: Behavior Management in APE Environments. Techniques of effectively managing behavior and promoting learning of individuals of all ages and levels of abilities who have disabilities and are at risk. Underlying theories and research applications. Three lecture hours a week. Credit: Three hours.

KINS 5813. Research in Kinesiology. Individualized research in a specific area of kinesiology. May be repeated for additional credit. Eight laboratory hours a week. Credit: Three hours.

KINS 5843. Pedagogy III: APA and the APENS Theory to Practice. Assessment, planning, and implementation of evidence-based physical education classes for students with low-incidence disabilities. Focus on competencies guided by the Adapted Physical Education National Standards (APENS). Three lecture hours a week. Credit: Three hours.

KINS 5853. Assessment in Adapted Physical Education. Conditions which impede psychomotor functioning; application and evaluation of assessment instruments pertaining to the motor domain; determination of educational placement; role of the physical educator for the Admission, Review, and Dismissal (ARD) / Individualized Education Program (IEP) Committee; and development of Full Individual Evaluation (FIE) and appropriate goals and objectives for the IEP. Focus on evidence-based research and universal design for learning and instruction. Development of competencies directed toward achievement of the Adapted Physical Education National Standards (APENS). Three lecture hours a week. Credit: Three hours.

KINS 5863. Pedagogy II: Instructional Strategies in APE Environments. Selecting and presenting appropriate intervention strategies for individuals with varying disabling conditions. Techniques for modifying environmental conditions to increase attending behaviors. Three lecture hours a week. Credit: Three hours.

KINS 5883. APA II: Disability Sport and Fitness. Developmental and competitive sports in school/community settings; Paralympics, Special Olympics, and deaf sport; wheelchair and ambulatory sports for all groups/ability levels; assessment, athletic training, coaching, organization, and administration. Three lecture hours a week. Credit: Three hours.

KINS 5903. Special Topics. Specially scheduled course on topic of current interest. May be repeated for additional credit when topic varies. Three lecture hours a week. Credit: Three hours.

KINS 5911. Independent Study. Study of a specific topic in physical education leading to the solution of a problem of interest to the profession or the student. May be repeated for additional credit. Prerequisite: Permission of the instructor. Credit: One hour.

KINS 5913. Independent Study. Study of a specific topic in physical education leading to the solution of a problem of interest to the profession or the student. May be repeated for additional credit. Prerequisite: Permission of the instructor. Credit: Three hours.
KINS 5963. APA I: Disability Sport and Fitness Populations. Fitness assessment, program development, and implementation for individuals with disabilities and/or related conditions in a clinical setting leading to preparation for the Certified Inclusive Fitness Trainer Exam (CIFT). Two lecture and two laboratory hours a week. Credit: Three hours.

KINS 5973. Professional Paper and Project. Credit: Three hours.

KINS 5981. The Professional Portfolio. Development of a professional portfolio by students in the Master of Arts in Teaching program demonstrating the student's growth in the Learner-Centered Competencies. Pass-fail grade only. May be repeated. Credit: One hour.

KINS 5983. Thesis. Prerequisite: KINS 5023 or equivalent. Credit: Three hours.

KINS 5993. Thesis. Prerequisite: KINS 5983. Credit: Three hours.

KINS 6043. Statistical Inference. Application of analysis of variance and covariance, factorial analysis of variance, and multiple regression to research design problems in kinesiology and other related areas. Special emphasis will be given to repeated measures designs used in conjunction with between subjects designs, as well as to multivariate designs. Prerequisite: KINS 5033 or equivalent. Three lecture hours a week. Credit: Three hours.

KINS 6113. Seminar. Informal, individual, or small group study of a special problem or current issue in physical education. May be repeated for additional credit. Three seminar hours a week. Credit: Three hours.

KINS 6133. Professional Internship. Guided field experience in administrative, supervisory, consultant, or similar level positions. Field experiences may not be part of the student's regular job responsibilities. May be repeated for three additional credit hours. One lecture and eight practicum hours a week. Credit: Three hours.

KINS 6143. Research Design in Kinesiology. Considerations of research designs with emphasis upon statistics involving multi-group models. Prerequisites: KINS 5023, KINS 5033, and KINS 6043; or permission of instructor. Three lecture hours a week. Credit: Three hours.

KINS 6413. Research Seminar in Sport Management. Research intensive doctoral seminar analyzing the sport industry. Prerequisite: KINS 5413. Three lecture hours a week. Credit: Three hours.

KINS 6423. Research Seminar in Sport Promotion and Sponsorship. Research intensive doctoral seminar analyzing the field of sport promotion and sport sponsorship. Three lecture hours a week. Credit: Three hours.

KINS 6443. Research Seminar in Electronic Sport Information. Research intensive doctoral examination of electronic sport information as it relates to sport management. Three lecture hours a week. Credit: Three hours.

KINS 6523. Advanced Biomechanics. Advanced biomechanical issues such as inertial properties of the human body, mathematical body modeling, numerical methods in biomechanics, advanced joint kinematics and kinetics, and musculoskeletal modeling. Prerequisite: KINS 5513. Three lecture hours a week. Credit: Three hours.

KINS 6553. Human Motor Control. Control and coordination of human movement from theoretical perspectives. Exploration of how sensory and motor systems integrate information to perform motor functions including postural control, gait, and reaching and grasping in healthy and diseased populations. Prerequisite: KINS 4573 or permission of instructor. Three lecture hours a week. Credit: Three hours.

KINS 6573. Motor Learning and Performance. Examination of how humans learn, relearn, and perform motor skills. Foundational theory and current research in human motor learning and frameworks for explaining why certain behaviors emerge in both typically developing and special populations. The "researcher-practitioner" model, including interpretation of theory, proposal of basic experiments, and application to fields such as coaching, physical therapy, occupational therapy, and rehabilitation. Prerequisite: KINS 4573 or approval of instructor. Three lecture hours a week. Credit: Three hours.

KINS 6611. College Level Instructional Design and Delivery in Kinesiology. Design and implement course, instructional strategies, and evaluation techniques. Prerequisite: Master's degree in Kinesiology or advisor approval. Three laboratory hours a week. Credit: One hour.

KINS 6623. Biomechanical Analysis I: Motion Analysis. Advanced motion and analysis techniques including human body modeling, high-speed videography, manual and automatic marker tracking, data reduction and processing, 2- and 3-dimensional analysis, inverse dynamics, and computer procedures. Prerequisite: KINS 5513 or approval of instructor. Two lecture and two laboratory hours a week. Credit: Three hours.

KINS 6643. Biomechanical Analysis II: Data Acquisition and Instrumentation. Advanced data acquisition issues including A/D conversion, device interface, programming, force plate and ground reaction force analysis, electrode placement and EMG analysis, EMG normalization and force processing, and biomechanical instrumentation. Prerequisite: KINS 6623. Two lecture and two laboratory hours a week. Credit: Three hours.

KINS 6671. Advanced Research in Adapted Physical Activity Doctoral Seminar. Research involving development of scholarship (manuscripts, presentations, and grants) to share with other researchers. Variable content will be related to problems of professional significance. Prerequisite: Master's degree in Kinesiology or consent from student's program advisory committee chair. One seminar hour a week. Credit: One hour.

KINS 6811. Advanced Research in Kinesiology. In-depth research involving literature review, identification of research question, research design, development of research tools and analysis protocols, data collection and analysis, report writing, and presentation. May be repeated for additional credit. Credit: One hour.

KINS 6813. Advanced Research in Kinesiology. Kinesiology research involving literature review, identification of the research question, research design, development of research tools and analysis protocols, data collection and analysis, manuscript writing, and presentation. May be repeated for additional credit. Eight laboratory hours a week. Credit: Three hours.

KINS 6821. Research in Exercise Physiology. Research in exercise physiology involving literature review, identification of the research questions, research design, laboratory techniques, data collection and analysis, manuscript writing, and presentation. May be repeated for additional credit. Credit: One hour.

KINS 6853. Practicum: Appraisal in Adapted Physical Education. Administration of tests of psychomotor functioning; interpretation of findings; writing the I.E.P.'s; participation in multidisciplinary staffing. May be repeated for up to six credit hours. Six practicum hours a week. Credit: Three hours.

KINS 6911. Independent Study. Study of a specific topic in physical education leading to the solution of a problem of interest to the profession or the student. May be repeated for additional credit. Prerequisite: Permission of the instructor. Credit: One hour.

KINS 6913. Independent Study. Study of a specific topic in physical education leading to the solution of a problem of interest to the profession or the student. May be repeated for additional credit. Prerequisite: Permission of the instructor. Credit: Three hours.

KINS 6993. Dissertation. Prerequisite: KINS 6983. Credit: Three hours.

Faculty

Professors

BEN-EZRA, VICTOR, Professor of Kinesiology. B.S., City University of New York City College; M.S., Springfield College; Ph.D., University of Maryland, College Park.

DAVIS, RONALD W., Professor of Kinesiology. B.S., University of Wisconsin, Oshkosh; M.S., University of Wisconsin, LaCrosse; Ph.D., Texas Woman's University.

KING, GEORGE, Professor of Kinesiology; Director of the School of Health Promotion and Kinesiology. B.S., Colorado State University; M.S., Colorado State University; Ph.D., University of Tennessee System: Knoxville.

KWON, YOUNG-HOO, Professor of Kinesiology. B.S., Seoul National University; M.Ed., Seoul National University; Ph.D., Pennsylvania State University, University Park.

MILOCH, KIMBERLY S., Professor of Kinesiology. Associate Dean of College of Health Sciences. B.A., Southwest Texas State University; M.S., Baylor University; Ph.D., Florida State University.

NICHOLS, DAVID L., Professor of Kinesiology. B.S., Central State University, Oklahoma; M.S., Texas Woman's University; Ph.D., Texas Woman's University.

RAY, CHRISTOPHER T., Professor of Kinesiology; Dean of the College of Health Science. B.S., University of Tennessee; M.S. University of Tennessee; Ph.D., University of Georgia.

Associate Professors

BIGGERSTAFF, KYLE D., Associate Professor of Kinesiology. B.A., Southern Methodist University; M.S., University of North Texas; Ph.D., Florida State University.

DILLON, SUZANNA, Associate Professor of Kinesiology. B.S., Alma College; M.A., Western Michigan University; Ph.D., Texas Woman's University.

GOLMAN, MANDY A., Associate Professor of Health Studies. B.A., University of Texas, Austin; M.S., Texas Woman's University; Ph.D., Texas Woman's University.

MANN, MARK D., Associate Professor of Kinesiology. B.A., Southwestern University; M.A., Southern Nazarene University; M.S., Nova Southeastern University; M.S., Pittsburg State University; Ed.D., Oklahoma State University; Ph.D., University of Arkansas.

MASSEY-STOKES, MARILYN, Associate Professor of Health Studies. B.S., Southwestern Oklahoma State University; M.Ed., Southwestern Oklahoma State University; Ed.D., Oklahoma State University.

RIGBY, BRANDON RHETT, Associate Professor of Kinesiology. B.S., LeTourneau University; M.S., Baylor University; Ph.D., Baylor University.

SENNE, TERRY A., Associate Professor of Kinesiology; Director of Academic Assessment. B.S., George Williams College; M.S., University of Illinois, Chicago; Ph.D., North Carolina State University.

WEATHERFORD, GWENDOLYN, Associate Professor of Kinesiology. B.S., Texas A&M, Commerce; M.S., Texas A&M, Commerce; Ph.D., Texas Woman's University.

WIGINTON, KRISTIN L., Associate Professor of Health Studies. B.S.Ed., Baylor University; M.S.Ed., Baylor University; Ph.D., Texas Woman's University.

Assistant Professors

AMUTA, ANN O., Assistant Professor of Health Studies. M.P.H., Texas A & M University; Ph.D., Texas A & M University.

BECKER, KEVIN, Assistant Professor of Kinesiology. B.S., University of Wisconsin-LaCrosse; M.S., Illinois State University; Ph.D., University of Tennessee-Knoxville.

DUPLANTY, ANTHONY, Assistant Professor of Kinesiology. B.S., University of North Texas; M.S., University of North Texas; Ph.D., University of North Texas.

ESPINOZA, LUIS ENRIQUE, Assistant Professor of Health Studies. B.S., The University of Texas-Pan American; B.A., The University of Texas-Pan American; M.S., The University of Texas-Pan American; M.P.H., University of North Texas Health Science Center; Ph.D., Texas Woman's University.

MENN, MINDY, Assistant Professor of Health Studies. B.A., Texas A&M University; M.S., Texas A&M University; Ph.D., University of Florida, Gainesville.

PICARIELLO, MANUELA, Assistant Professor of Kinesiology. B.S., University of San Marino; M.S., University of San Marino, Ph.D., University of Tennessee System: Knoxville.

Assistant Clinical Professor

GILLASPY, JESSICA, Assistant Clinical Professor of Kinesiology. B.S., University of North Texas; M.S., University of West Florida.
