Graduate Degrees Offered

- Master of Science in Nursing (Nurse Practitioner)
 - Family Nurse Practitioner
 - Pediatric Nurse Practitioner
 - Women's Health Nurse Practitioner
 - Adult-Gerontology Nurse Practitioner
 - Adult-Gerontology Acute Care Nurse Practitioner
- Master of Science in Nursing (Nursing Education)
- Master of Science in Nursing (Nursing Health Systems Management)
- Ph.D., Doctor of Philosophy in Nursing Science
- D.N.P., Doctor of Nursing Practice
- D.N.P. Bridge Program to Ph.D.

The College of Nursing offers the Master of Science in Nursing degree program (M.S.N.), the Doctor of Philosophy degree (Ph.D.) in Nursing Science program, and the Doctor of Nursing Practice degree (D.N.P.) program. The master's and doctoral degrees are offered part-time or full-time.

The Baccalaureate degree program in nursing, the Master of Science in Nursing degree program in nursing, and the Doctor of Nursing Practice degree program at Texas Woman's University are accredited by the Commission on Collegiate Nursing Education (<https://www.aacnnursing.org/CCNE/>), 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

The M.S.N. program prepares professional nurses for leadership roles in the management and promotion of healthcare, and nursing education. Graduate study in nursing requires the acquisition and systematic application of knowledge and skills in nursing practice, nursing research, and nursing role. Critical thinking skills are enhanced through the study of nursing theory and research.

The D.N.P. program is designed to improve practice expertise and accelerate the translation of evidence into practice. The D.N.P. prepares graduates to practice at the most advanced level of nursing and to improve practice and health outcomes.

The Ph.D. program is designed for nurses who have developed specialized expertise in health care. The primary goal of the program is

to develop leaders, scholars, and researchers who will make a significant contribution to the nursing profession in the discovery, integration, application, and dissemination of knowledge.

Master of Science in Informatics

Informatics is the study and application of information science, computer science, cognitive science, and organizational science to the arts, sciences, and professions. The Master of Science in Informatics (<http://catalog.twu.edu/graduate/arts-sciences/mathematics-computer-science/informatics-ms/>) program at TWU provides students with a flexible, adaptable, interprofessional, and interdisciplinary approach to the study of Informatics in a hybrid learning environment. The program will provide students with the skills needed for success in high-demand professions and careers in the areas of Clinical Informatics, Data Science/Data Analytics, Health Studies, Sports Informatics, and Community Informatics. The program is delivered collaboratively by Academic Components including Computer Science, Nursing, Health Studies, Kinesiology, and Library and Information Studies.
