

ACCELERATED BACHELOR OF SCIENCE IN BIOLOGY/MASTER OF SCIENCE IN BIOLOGY

Web Site: <https://twu.edu/biology/undergraduate-programs/bachelor-of-science-in-biology/>

The purpose of this program is to provide exceptional undergraduate students in Biology a path toward accelerated completion of a master's degree in Biology. Students in the program will complete 12 graduate hours during their final 30 hours of undergraduate coursework that will count toward both their B.S. in Biology and M.S. in Biology degrees.

This is a competitive program, and students must submit an application and meet eligibility requirements during their junior year to be admitted to the program. Upon graduating with the B.S. in Biology, a student in the accelerated program must submit a formal application for admission to the M.S. in Biology program and meet all admissions requirements.

Please see the Graduate Catalog for a complete list of degree requirements for the M.S. in Biology program (<https://catalog.twu.edu/graduate/arts-sciences/biology/biology-ms/>).
