## **Marketable Skills**

Defined by the Texas Higher Education Coordinating Board's 60x30 Strategic Plan (https://reportcenter.highered.texas.gov/agency-publication/miscellaneous/thecb-60x30-strategic-plan/) as, "Those skills valued by employers that can be applied in a variety of work settings, including interpersonal, cognitive, and applied skills areas. These skills can be either primary or complementary to a major and are acquired by students through education, including curricular, co-curricular, and extracurricular activities."

- a. Effectively communicate scientific and technical information to an interdisciplinary audience.
- Apply qualitative and quantitative research methods to scientific problems.
- Think critically about environmental problems and propose effective solutions.
