

BACHELOR OF SCIENCE IN DATA SCIENCE AND INFORMATICS (COMMUNITY INFORMATICS MINOR)

Web Site: <https://twu.edu/informatics/undergraduate-programs/>

The B.S. in Data Science and Informatics with a Community Informatics Minor begins with a comprehensive computer science core and combines with academic components from the Library Science program. This hybrid program equips you to facilitate community change in nonprofit and other organizations, and includes a focus on information retrieval and the knowledge economy, concluding with a capstone course.
