

BACHELOR OF SCIENCE IN HISTORY (4-8 SOCIAL STUDIES CERTIFICATION)

Web Site: <https://twu.edu/history/undergraduate-programs/>

Marketable Skills

Marketable skills prepare students for success in a variety of professional settings. Developed through academic coursework, co-curricular engagement, and extracurricular involvement, these skills include communication, critical thinking, teamwork, ethical reasoning, adaptability, and digital literacy. Whether directly related to a student's major or serving as complementary strengths, marketable skills enhance career readiness and reflect TWU's commitment to producing graduates who are prepared to thrive in today's dynamic workforce.

Degree Skills

1. Employers want employees who are organized and complete projects on time. The B.S. in History develops these skills by requiring students to read, research, and write independently and present research in a public forum (orally or in written form) with fixed deadlines.
2. Employers want employees who have solid writing and compositional skills. The B.S. in History develops this skill by requiring students to engage in clear, persuasive, grammatically, and stylistically correct writing projects (research papers, policy briefs, reaction papers, memos, position papers, etc.).
3. Employers want employees who have solid oral communication skills. The B.S. in History develops these skills by requiring students to present their research in a public forum (that is, in front of a class of peers) using visual aids (slides, charts, graphs, etc.) or to role-play in a public forum requiring extensive research on that role.

Teacher Certification Skills

1. Appropriately explain the impact of effective planning and communication (within the chosen area of concentration) to relevant internal and external stakeholders in an education or community setting.
2. Identify, select, and implement entry-level instructional plans when serving as an instructor in the school setting.
3. Successfully manage organizational and student behavior when teaching in the school setting.
4. Efficiently and accurately assess student progress and use data to develop and modify instruction for K-12 students.
5. Work effectively and collaboratively with students and families from diverse backgrounds.
