# BACHELOR OF SCIENCE IN SOCIOLOGY (SOCIAL INEQUALITY CONCENTRATION)

**Web Site:** https://twu.edu/sociology/undergraduate-programs/bs-in-sociology-social-inequality/

The sociology curriculum is designed to give students a broad education while preparing them for work and practice in a variety of fields. A wide array of courses provides training in research methods and techniques; insight into social class, racial-ethnic and gender inequality; group differences; understanding of social organizations, social forces, and group processes; and skills to be used in working with individuals or groups. The curriculum builds a background for any occupation that involves working with people and/or social organizations. The sociology program can prepare students to teach sociology in public schools and to do research, practice, or other work with private or governmental agencies. Sociology provides an invaluable background for graduate study and for careers in business, public service, law, medicine, and other helping professions. Opportunities for practical work experience are provided through the University's Internship Program.

### **Marketable Skills**

Defined by the Texas Higher Education Coordinating Board's 60x30 Strategic Plan (https://reportcenter.highered.texas.gov/agency-publication/miscellaneous/thecb-60x30-strategic-plan/) as, "Those skills valued by employers that can be applied in a variety of work settings, including interpersonal, cognitive, and applied skills areas. These skills can be either primary or complementary to a major and are acquired by students through education, including curricular, co-curricular, and extracurricular activities."

- Apply critical thinking, analytical reasoning skills, and sociological knowledge and skills to real-world settings.
- 2. Work with numbers and demonstrate quantitative skills.
- Make a presentation on and write a non-technical report understood by non-sociologists.
- Work with people in different groups characterized by race, ethnicity, gender, socioeconomic class, religion, or immigration status to achieve a goal.
- 5. Make an evidence-based argument.
- 6. Use computers to locate and analyze data.
- 7. Gather information and analyze social problems.
