

# BACHELOR OF BUSINESS ADMINISTRATION IN ACCOUNTING

---

**Web Site:** <https://twu.edu/business/undergraduate-programs-college-of-business/bba-in-accounting/>

As corporations and industries relocate to north Texas to take advantage of its business-friendly climate, the demand for skilled professional accountants continues to grow. If you love numbers and want to work in corporate or forensic accounting, auditing, or become a corporate controller or Chief Financial Officer (CFO), the B.B.A. in Accounting gives you the educational background you need to get there. With our degree in Accounting, you are prepared to work as a professional accountant from day one. In addition, you will be well on your way toward fulfilling the requirements you need for the CPA exam if that is your professional goal. See below for more information on the requirements for the CPA exam.

Our professors have real-world accounting expertise, and teaching experience that allows them to convey the theories and principles of accounting in a way you can understand. Learn from some of the best professionals in the field and benefit from many opportunities you will have to network with professional accountants in north Texas. Our student accounting organizations sponsor many business networking events every year and we welcome all students to participate. Through these events, you will have a chance to meet other professional accountants, meet business recruiters, and build your own professional network.

## **Notes for students interested in becoming a licensed Certified Public Accountant (CPA)**

CPA candidates must complete a total of 150 semester credit hours, including an additional 6 semester credit hours of upper-level accounting courses to be eligible to sit for the CPA exam. The College of Business attempts to ensure that all accounting and non-accounting business classes offered are accepted by the Texas State Board of Public Accountancy for CPA Exam credit. The B.B.A. in Accounting, when combined with the M.B.A.-Accounting, is designed to provide all courses needed for CPA eligibility under current requirements. The State Board can and does make changes in course requirements and course acceptance as the Board deems appropriate. In addition, TWU may offer elective courses from time to time that do not meet any specific requirements set forth by the Board. Students are subject to all Board changes until the student receives an official letter from the State Board indicating that the student has fulfilled all requirements. Students interested in becoming qualified to sit for the CPA Exam must work with the State Board to determine their eligibility.

Classes are located on our Denton campus in face-to-face and online formats.
