

# BACHELOR OF SCIENCE IN HEALTH STUDIES (MASTER'S PREPARATION)

---

**Web Site:** <https://twu.edu/health-studies/undergraduate-programs/bs-in-health-studies/>

Health Studies majors who select the Master's Preparation area of study can pursue graduate study in a health-related area. This program does not lead to a master's degree, nor guarantee admission into a graduate program at TWU or any other institution. The Master's Preparation area of study offers common prerequisite coursework needed for graduate study in health-related areas. Students wishing to pursue a master's degree are recommended to apply and be accepted to the TWU Graduate School in their senior year to transition to a master's degree program successfully. Graduates are eligible to take the CHES® Exam to become Certified Health Education Specialists.
